Dear My Employer,

My name is Fatin Syahirah Binti Romee, and I'm excited to apply for any position of Landscape Architect in Hunza Properties Berhad. As a recent graduate with a Bachelor in Landscape Architecture from University Putra Malaysia (UPM) and a lifelong passion for creating beautiful, functional outdoor spaces, I am excited about the opportunity to begin my career with a company that shares my values and dedication to excellence. I was particularly drawn to JHunza Properties Berhad commitment to sustainable design practices and community engagement, which aligns perfectly with my own aspirations as a landscape designer.

During my studies at University Putra Malaysia (UPM), I had the privilege of working on several hands-on projects that allowed me to apply my theoretical knowledge to real-world challenges. For my lecturer project, I collaborated with a team of fellow students to design a sensory garden for a local elementary school. By carefully selecting plant species, incorporating interactive elements, and ensuring accessibility for all users, we created a space that not only enhanced the school's aesthetics but also provided valuable educational and therapeutic benefits for the students. This experience strengthened my skills in design software, project coordination, and effective communication, which I believe would be valuable assets in the Entry-Level Landscape Designer role at Hunza Properties Berhad.

Moreover, I am eager to continue learning and growing under the guidance of your company experienced team of landscape professionals. I am particularly excited about the opportunity to contribute to projects that prioritize environmental stewardship, such as the integration of native plant species and water-efficient irrigation systems. I am confident that my strong work ethic, creativity, and passion for sustainable design would enable me to make a positive impact on Hunza Properties Berhad projects and clients.

Thank you for considering my application. I would welcome the chance to discuss further how my skills, enthusiasm, and fresh perspective could contribute to your company continued success. I look forward to the possibility of joining your team and learning from the best in the industry.

Sincerely,

Fatin Syahirah

FATIN SYAHIRAH ROMEE

CERTIFIED LANDSCAPE ARCHITECTURE

PROFESSIONAL EXPERIENCE

A good team player of the group and has ability to adopt quickly and cope with change to a new environment. Quick learner with a desire to learn new thing and able to handle multiple task and highly organized person.

WORK EXPERIENCE

LANDART DESIGN SDN.BHD.

| Assistants Landscape Architect

August 2023 - January 2024 (internship)

- Conducting research on site conditions, environmental regulations, and zoning codes, analyzing data, and assisting in design and coordination.
- Participate in site visits, material selection, cost estimation, and client interaction. They ensure regulatory compliance, research and recommend environmentally friendly practices, and stay updated on industry trends and best practices.
- Contribute to client interaction, ensure environmental sustainability, and participate in continuing education to enhance skills and knowledge.

CAHAYA PADANG ENTERPRISE MELAKA | Supervisor Landscape

December 2018 - may 2019 (Internship)

- landscape work in the entire area of Melaka. Design landscape area. managing all field operations. scheduled use of resources such as labor, equipment, materials and ensure maximum use and completion of work within budget, safety guidelines and quality standards.

BACKGROUND STUDY
THE PURPOSE OF THIS STUDY IS TO FULFILL THE REQUIREMENT OF THE DESIGN SPACE IN STANA PUTERI BONGSU.

DESIGN ISSUES
GENERAL ROOMS REQUIRE A GOOD SELECTION OF PLANTS TO PROVIDE VISUAL INTEREST AND A FEELING OF VARIATION THAT PROVIDE AESTHETIC VALUE. PLANTS SHOULD BE CHOSEN TO PROVIDE VISUAL INTEREST AND A FEELING OF VARIATION THAT PROVIDE AESTHETIC VALUE.

FOHNS
USING GEOMETRIC SHAPES AND A FEELING OF VARIATION THAT PROVIDE AESTHETIC VALUE.

CULTURAL
CONSIDER THE CULTURAL LANDSCAPE WHICH MAY BE VALUE BECAUSE OF THE REGIONAL ASPECT OF CULTURAL HERITAGE OF THE NATURAL ELEMENT.

RELATED IMAGE
[Images of various garden designs]

GOAL
TO PROVIDE OUTDOOR GALLERY WITH BALANCE GARDEN APPROACH.

OBJECTIVE
1. TO CREATE AN AREA WHICH HAVE OUTDOOR WALKING SURFACE RELATIVE IN THE OUTDOOR GALLERY.
2. TO PROVIDE AN ATTRACTIVE ENVIRONMENT FOR USERS WITH HIGH QUALITY EXPERIENCE OF QUALITY APPROACH.
3. TO CREATE AN OUTDOOR GALLERY IN THE SITE.

VEGETATION
The composition of vegetation in each island is different. This is due to the different climate conditions, which makes it difficult to determine the type of vegetation in each island. However, the following is a list of the types of vegetation in each island.

WILDLIFE
Wildlife is an animal that lives in the wild. It is an important part of the ecosystem and can be used as a source of food and medicine.

TOURISM ACTIVITIES
Tourism activities are activities that are carried out by tourists to enjoy the beauty of a place. These activities can be carried out in various ways, such as sightseeing, shopping, and participating in local culture.

ADM
ADM (Administrative Management) is a process of managing administrative activities in an organization. It involves planning, organizing, leading, and controlling resources to achieve organizational goals.

INVENTORY ANALYSIS SYNTHESIS...
LANDSCAPE ARCHITECTURE PLANNING STUDIO
REHABILITATION LANDSCAPE ARCHITECTURE PLANNING & MANAGEMENT OF LANGKAT ISLAND, KAMPUNG KUALAH, KUALA SELANGOR

IDEA DEVELOPMENT
The idea development phase is the most critical phase in the design process. It involves generating a wide range of ideas and then refining them into a cohesive design concept.

CONCEPTUAL MAP
A conceptual map is a simplified representation of a landscape that highlights key features and relationships. It is used to communicate the overall vision and intent of a design.

PRECEDENT STUDY
A precedent study is a research tool used to identify successful design solutions and inform the development of a new design. It involves analyzing existing projects to understand their strengths and weaknesses.

REHABILITATION LANDSCAPE ARCHITECTURE PLANNING & MANAGEMENT OF LANGKAT ISLAND, KAMPUNG KUALAH, KUALA SELANGOR

THE MANGROVE LEAF
This project focuses on the rehabilitation of a mangrove area, aiming to restore its ecological value and provide a sustainable space for the community.

PLAN VIEW
The plan view shows the overall layout of the site, including the placement of buildings, walkways, and landscaping elements.

SECTION
The section view provides a vertical cross-section of the design, showing the relationship between the built environment and the natural landscape.

LANDSCAPE ARCHITECTURE PLANNING STUDIO
REHABILITATION LANDSCAPE ARCHITECTURE PLANNING & MANAGEMENT OF LANGKAT ISLAND, KAMPUNG KUALAH, KUALA SELANGOR

Objective 1
To improve the quality of the environment and create a sustainable living environment for the community.

Objective 2
To create a vibrant and inclusive community space that promotes social interaction and cultural heritage.

Objective 3
To enhance the aesthetic value of the landscape and create a visually appealing environment.

Summary
The site is a prime location for development as it offers a unique combination of natural beauty, cultural heritage, and strategic location. The proposed design aims to maximize these strengths while addressing the site's weaknesses and opportunities.

Rectifiable Weakness
The site has a high potential for development, but it also has some weaknesses that need to be addressed. These include the lack of infrastructure and the need for better site management.

Extreme Potential Opportunity
The site has a high potential for development, and there are several opportunities that can be exploited. These include the potential for eco-tourism, cultural heritage, and sustainable living.

Absolute Strength
The site has a high potential for development, and there are several strengths that can be leveraged. These include the site's natural beauty, strategic location, and potential for sustainable living.
